FPT Slovakia (Ing. Anna Vojtková, PhD.; Ing. Maroš Lukáč) doc. Ing. Štefan Korečko, PhD.

Problem Description

City services, nonprofits, and citizens lack a shared digital space for communication and coordination.

Evaluation

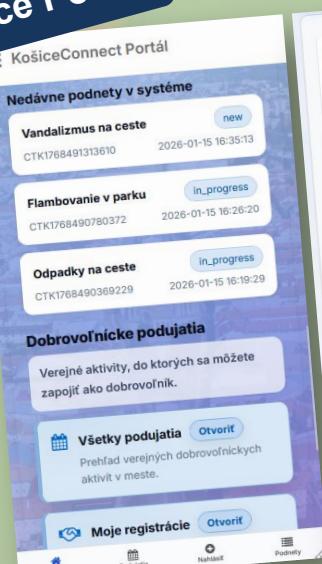

The KošiceConnect platform integrates citizens, the city, and non-profit organizations into a single digital solution.

The prototype demonstrates efficient issue reporting, transparent process tracking, and improved community engagement through a unified interface.

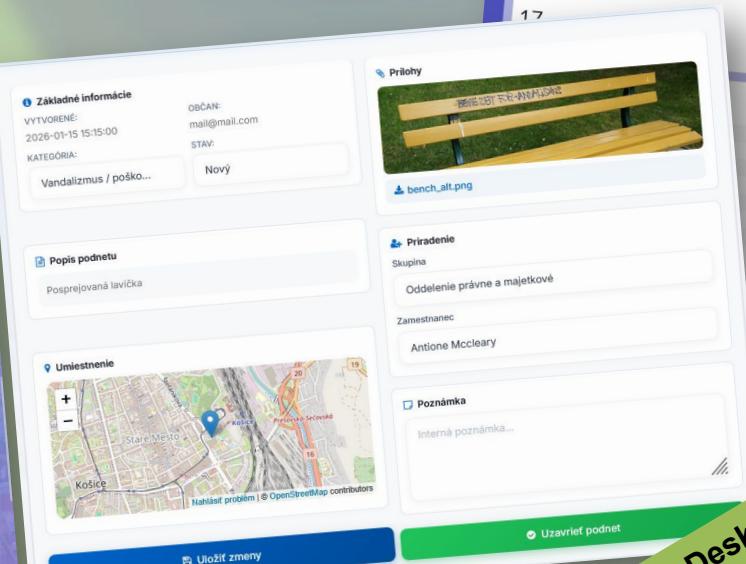

Current State / Usage

The solution is implemented as a functional prototype and is currently used in a test environment.
